Dear *trinity* family,

## The Latest Developments

July 1, 2009

Dear Trinity Family,

Blessings to each of you! The Facility Oversight Team continues on the journey of developing plans to relocate to the St. Paul Avenue property. We anticipated that we would be at a point where we would be bringing a recommendation to you at this time; however, we are not able to do that due to financing considerations.

As everyone is aware of, the economic climate has changed dramatically over the last six months. When we checked into financing last year, we were told that it should be no problem. Today, the banks are saying that we simply need to receive more funds before we can begin. This news delays the start of construction until the 2010 construction season at the earliest.

The banks have initially set a threshold of \$1.25 million as the amount that they would like to see received. At our current pace, it appears that we would cross that milestone in the late summer or early fall of 2010. Ideally, the contractors would want to start by July 1<sup>st</sup> in order to have the building closed up before winter.

While this could be viewed as discouraging news, we are encouraged because we believe that God is directing our steps. We will continue to rely on God as we continue to move forward in making plans.

Finally, the team wants to thank you so much for your prayer support. We continue to covet your prayer support in the future.

In Christ,

Scott Heemstra, on behalf of the Facility Oversight Team

p.s. Please be sure to check out the latest design changes on the updated drawings in the video venue.
